

Curriculum of Master Course on  
Integrated Coastal management  
at the Russian State Hydrometeorological  
University elaborated within framework of  
Tempus/ Erasmus-Mundus "EU-COMET2"  
Project

# Objective of ICM Master program

---

To provide possibility for obtaining knowledge and necessary competences in the field of Integrated Coastal Management

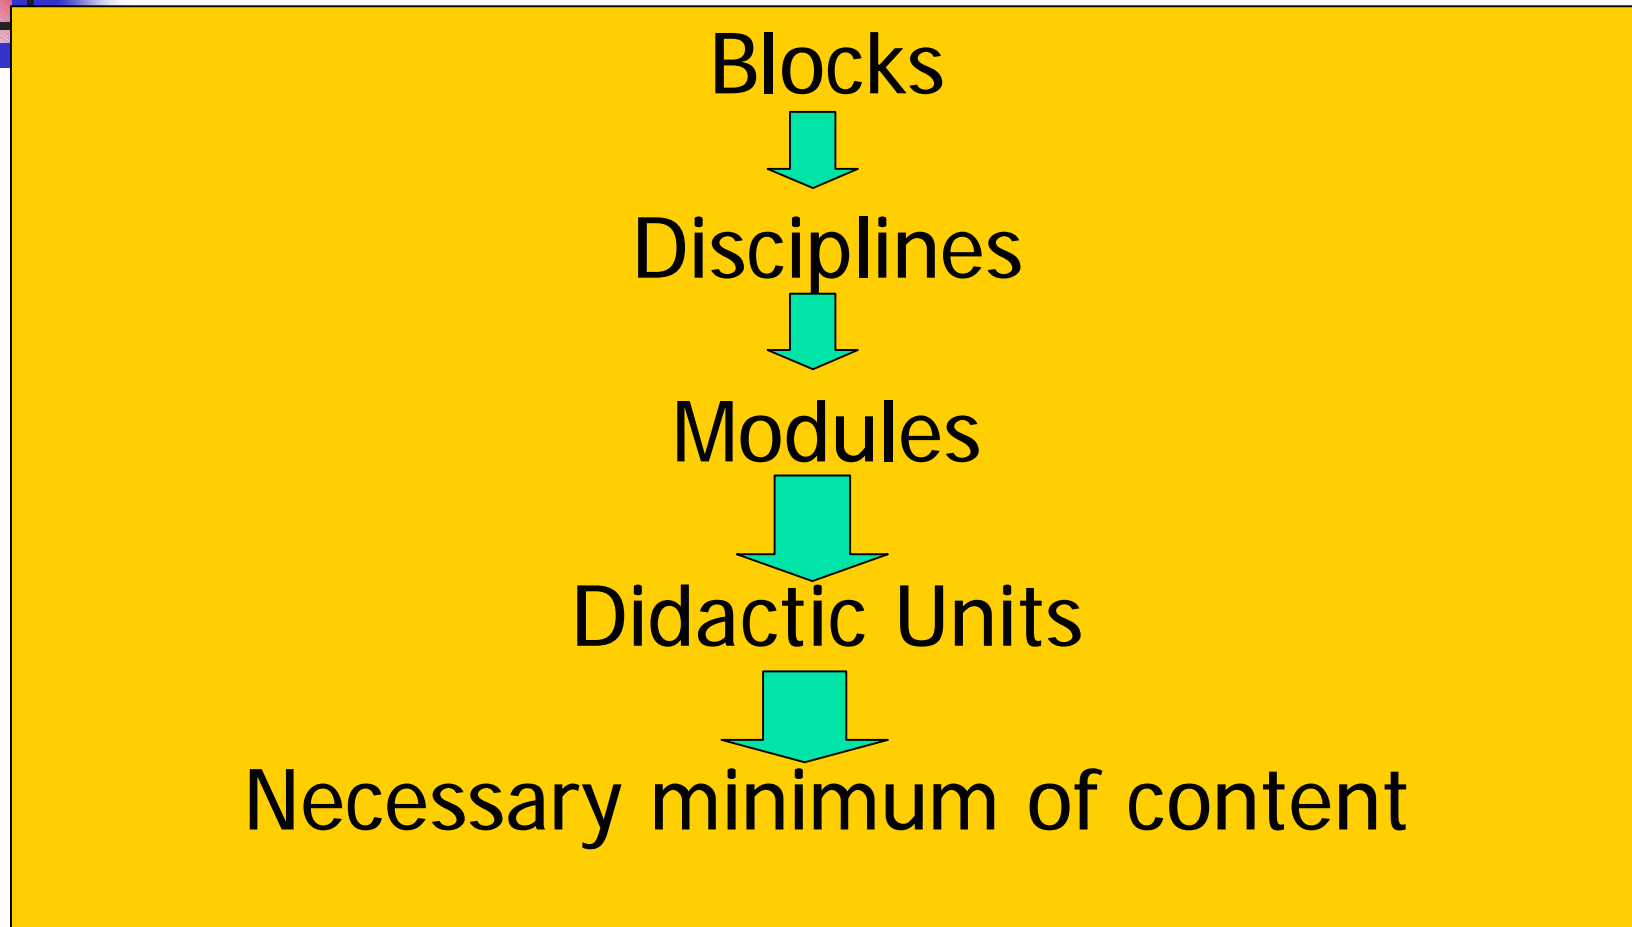

To provide possibility of mutual academic recognizing of ICM MS course it is necessary to satisfy the following requirements:

---

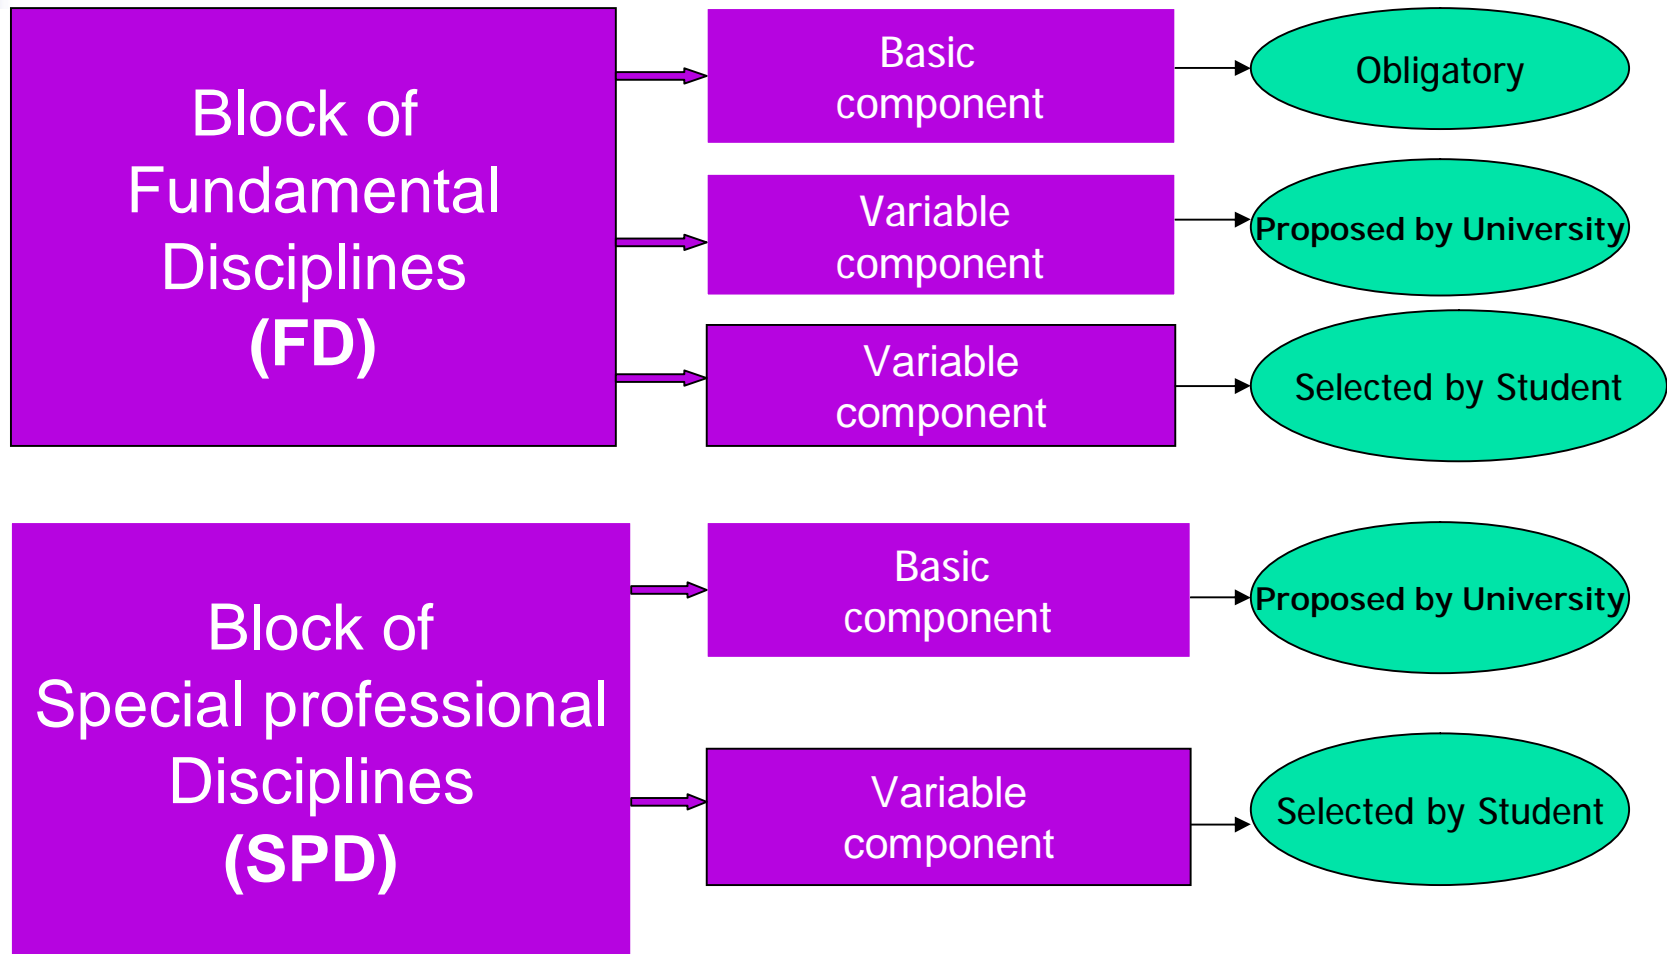

- n To introduce Bologna principles (credit system, module's construction, competence approach) for integration of RSHU MS course into common educational space
- n To consider specificity of partner Universities for formation of conditions for future student and staff mobility in framework of common educational process
- n To consider the Russian formal requirements for national legislation of MS program

## Structure of methodic submission

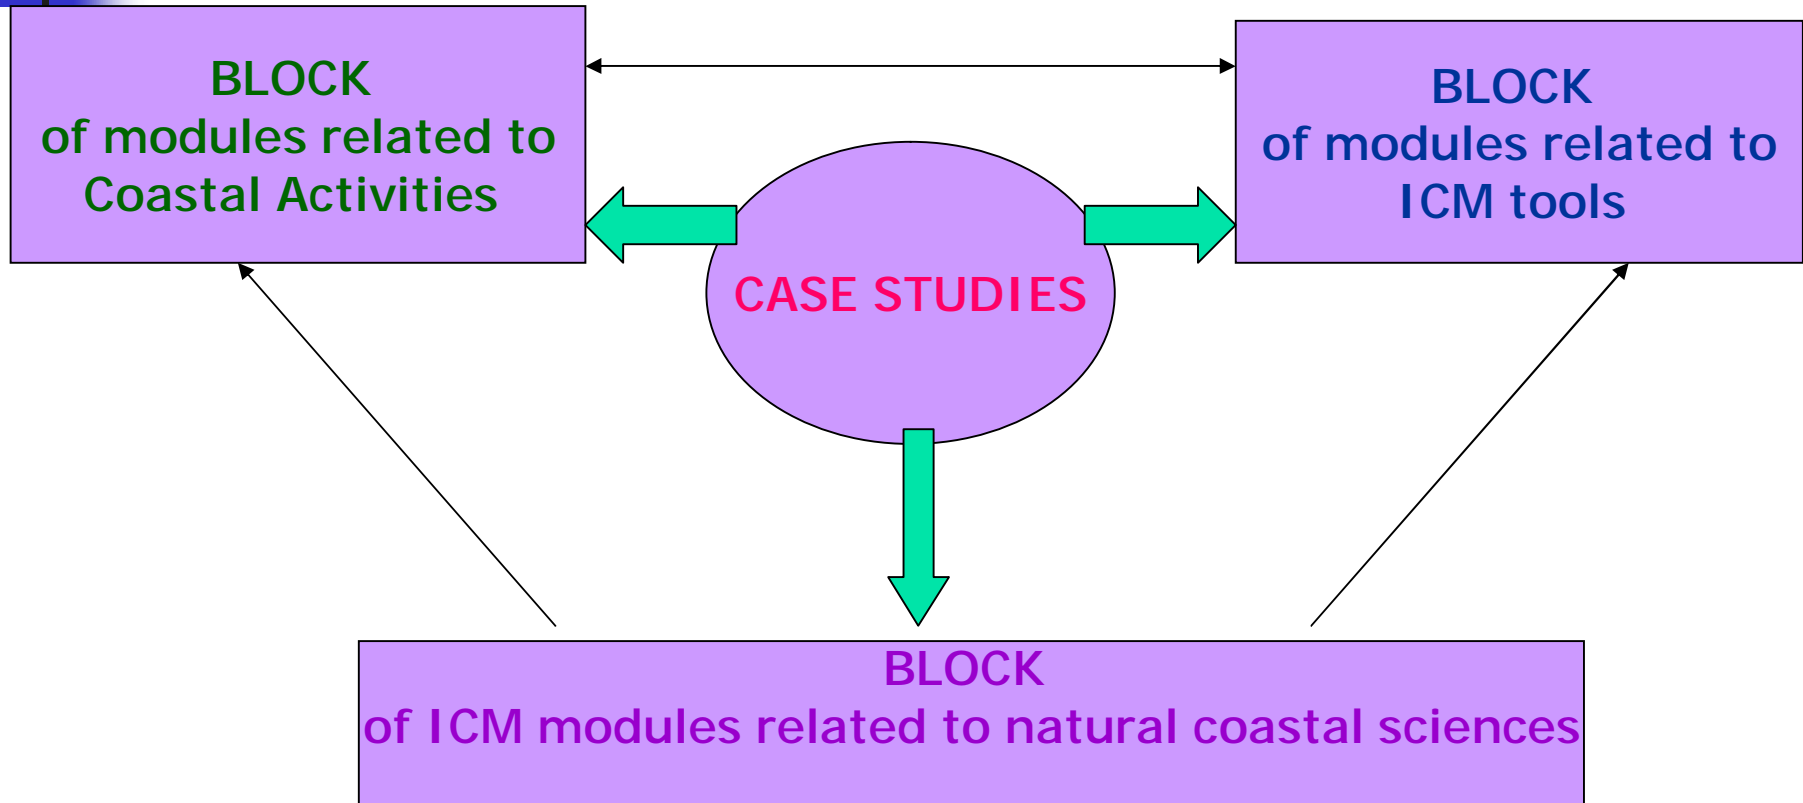

# Structure of blocks

(according to RF educational standard)

# Structure of ICM modules, that are selected by students

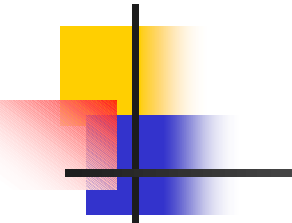

# Case study as a tool for improvement of professional skills

---

- n Case study describes real experience and practice of ICM project implementation;
- n This experience can be widely adopted in other coastal regions;
- n Analysis of case study assist to development of cross-disciplinarity vision that is important for ICM professional skills;
- n Case study provides for possibility to integration of different academic blocks (natural sciences disciplines, coastal activities. ICM tools);
- n Case study supplies with links between different coastal zone components (nature, human impacts, economics, social component);
- n Case study demonstrates real results, that have been achieved at testing coastal areas with use of ICM approach;

Integrated Coastal Management  
at the Russian State Hydrometeorological  
University elaborated within framework of  
Tempus/ Erasmus- Mundus "EU-COMET 2"  
Project**

**RF Ministry of Education and Sciences  
Russian State Hydrometeorological University**

**Field of Education : 521500 Management**

**Title of Master Course: Integrated Coastal  
Management**

**Form of Education: Full-time Study Program**

**Degree: Master of Management**

**Total : 4068 hours (120 credits)**

**Duration - 2 years**
